SIDE IMPACT PROTECTION (STRUCTURAL) **YES**

COMMENTS

Adult occupant: Frontal impact: The protection offered to the driver and passenger head and neck was good. Driver chest received adequate protection and passenger chest received good protection from the restraint systems. Driver and passenger knees showed good protection. Driver tibias showed adequate and good protection, and Passenger's tibias showed good protection. Footwell area was rated as stable and showed insignificant deformation. Feet protection is good. The body shell was rated as stable. **Side impact:** The car offered good protection to head, thorax, abdomen and pelvis. Front door opened during the impact. Side Pole Impact: The car offered good protection to head and pelvis, adequate to the abdomen marginal for the chest. **ESC:** The ESC was tested and its performance met the regulatory requirements of Latin NCAP. The car offers 2 frontal SBR. All of the above explain the 5 stars for adult occupant protection.

CHILD OCCUPANT PROTECTION

COMMENTS

Child occupant: - The child seat for the 3-year-old child was installed rearward facing using the ISOFIX anchorages and a support leg and showed good protection during the frontal impact. The Q1.5 was installed rearward facing using ISOFIX anchorages and a support leg while it offered good protection during the frontal impact. **Side impact:** both child dummies were well protected in the side impact. All CRSs that were assessed for installation passed. The marking and instructions in the car in relation to CRS use met Latin NCAP requirements. ISOFIX marking also met Latin NCAP requirements. The passenger airbag disabling is possible. The car offers 3-point belts in all seating positions as standard, and all of them meeting technical international standards. It also offers ISOFIX anchorages with top tether in both rear outboard seating positions as standard. All the above explains the 5 stars for Child Occupant protection.
