ADULT OCCUPANT PROTECTION

ODB FRONTAL

FRONT PASSENGER DRIVER

MBD SIDE

POLE SIDE

NOT PERFORMED

PROTECTION ■ GOOD ■ ADEQUATE ■ MARGINAL ■ WEAK ■ POOR

BODYSHELL INTEGRITY UNSTABLE

SIDE IMPACT PROTECTION (STRUCTURAL) YES

COMMENTS

Adult occupant: Frontal impact: The protection offered to the driver head was adequate and passenger head received good protection. Driver and Passenger neck was good. Driver chest received marginal protection and passenger chest received good protection from the restraint systems. Driver and passenger's knees showed marginal protection as they can impact with dangerous structures behind the dashboard. Driver and passenger's tibias showed adequate and good protection. Footwell area was rated as stable and showed insignificant deformation. Feet protection is good. The bodyshell was rated as unstable. **Side impact:** The car offered good protection to head, abdomen and pelvis while chest received marginal protection. **Side Pole Impact:** was not performed as the car does not offer side head protection as standards. **ESC:** The ESC was tested and its performance met the regulatory requirements of Latin NCAP. The car offers 2 frontal SBR. All of the above explain the 4 stars for adult occupant protection.

CHILD OCCUPANT PROTECTION

Dynamic score:
23.35 (max 24)

Installation score:
12.00 (max 12)

Vehicle assessment score:
0.00 (max 13)

COMMENTS

Child occupant: -The child seat for the 3-year-old child was installed forward facing using the ISOFIX anchorages and a top tether and showed good protection during the frontal impact. The Q1.5 was installed rearward facing using ISOFIX anchorages and a support leg while it offered good protection during the frontal impact. **Side impact:** both child dummies were well protected in the side impact. All CRSs that were assessed for installation passed. The marking and instructions in the car in relation to CRS use met Latin NCAP requirements. ISOFIX marking did not meet Latin NCAP requirements, as the top tether is not marked in contrasting colours. The passenger airbag disabling is not possible. The car offers 3-point belts in all seating positions as standard, and all of them meeting technical international standards. It also offers ISOFIX anchorages with top tether in both rear outboard seating positions as standard. All the above explains the 4 stars for Child Occupant protection.
