Driver frontal airbag	YES	Seatbelt Reminder System	YES
Front passenger frontal airbag	YES	ABS	YES
Side body airbags	YES	ISOFIX	YES
Side head airbags	YES		

COMMENTS

Adult occupant: In the frontal impact the driver and passenger heads were both well protected by the driver and passenger airbags. Both seatbelts were equipped with pretensioners and load limiters. The driver and passenger knees areas did not show critical structures. The bodyshell was rated as stable and was capable of withstanding further loading.

Child occupant: The Isofix child seat for the 3 year old child and the 11/2 year old child were able to prevent excessive forward movement during the impact and protected both child well. The installation instructions on both child seats were sufficient and permanently attached to the seat. The vehicle had warning labels explaining the hazards associated with installing a rearward facing child seat on the front passenger seat with an active airbag.

(*) Side impact test under UNECE95 and passing the test is required for the 5 stars. OEMs can request the mentioned test voluntarily and its result to be published along with the other results of the model. For Latin NCAP, certain level of safety provided by a car, is considered only when it has been demonstrated in a crash test.
